

BROADBAND RESOURCES

For Home and Business Owners

Determining what options are available for broadband connectivity can be especially difficult when multiple companies are actively working to expand and upgrade services; the landscape is constantly changing. The recommendations provided below are not an endorsement. Local known providers include:

[AT&T](#)

[Ligtel Communications](#)

[Mediacom](#)

[XFINITY](#)

[Centurylink](#)

[Mercury Wireless](#)

[Watch Communications](#)

Public Wi-Fi

Noble County's main libraries and branches across the county offer free public access to the internet.

[Kendallville Public Library](#)
[Ligonier Public Library](#)

Plans for Low and Fixed Income Households

Several internet service providers offer programs that allow low-income and fixed-income households to receive discounted internet and computers. [Find out if you or a member of your household qualify.](#)

[PCs for People](#) provides low cost internet with mobile hotspots. Access is available nationwide using unlimited 4G LTE with plans starting at \$15 per month.

Unserved and Under-Served Addresses

Residences that are unserved or under-served are encouraged to report the situation by participating in [this survey](#), conducted by the Office of Community and Rural Affairs in support of Indiana's NextLevel Conne-

Public Wi-Fi for Students

Ligtel Communications, a local internet service provider, provides free public wi-fi hotspots for students enrolled in Noble County schools. Contact your school corporation for location and credentials.
