## INDUSTRY 4.0

### VIRTUAL

#### 5-COUNTY NORTHEAST INDIANA ECONOMIC DEVELOPMENT FORUM

### Wednesday, November 10 9 AM - 11 AM

Join LEDOs for a virtual forum featuring county development updates and guest speakers who will define Industry 4.0 and highlight the impacts and the future of work in Northeast Indiana.

#### Joshua Meinika, Robert Bosch Automotive Motor Systems

Joshua Meinika began his career at Robert Bosch Automotive Motor Systems in Northeast Indiana in 1998 when, at 19 years of age, he worked as a machine operator. He was a participant in the company's first Maintenance Apprenticeship program and has risen through the ranks holding positions including electrician, controls engineer, maintenance supervisor, and operations manager. Meinika is now the company's industrial technology manager, responsible for coordinating the Bosch Production System locally and within the global community, Industry 4.0 project management, data analytics project management, information technology in manufacturing, and he serves as Bosch's International and Production Network local contact.

Guest Speaker:  
Joshua Meinika
